

A season for *change...*

SAVE \$1000 | *on your purchase of Laser Lift or FaceTite*

Exp. 10/31/24. One year to redeem your treatments.

All summer we hear, "I'll do that in October." And here we are!

Our most popular treatments for making a change? Corrective skin treatments like laser resurfacing (or our exclusive RegenGlo) and profile-defining treatments like Laser Lift and FaceTite. Since 2009, we've performed these minimally invasive, minimal downtime treatments that are focused on one thing: cinching up loose skin under the chin and removing any extra fat.

Whether it's genetic or aging-related, this trouble spot annoys many men and women, yet usually not enough for them to get invasive surgery.

FaceTite vs. Laser Lift: What's the difference?

Our Chief Medical Officer, Dr. Gustav Lo, MD, has performed thousands of these procedures and says, "*FaceTite and Laser Lift are virtually identical treatments (one uses laser and one uses radiofrequency energy) that are performed just under the surface of the skin. During the 45-minute treatment, your skin is heated to help it tighten and contract, giving you a more defined profile in just a few weeks. Got a little bulge under there? No problem! With microcannulas, we'll remove that annoying fat, too.*"

The best part? The tightening results last for years and any fat removal is permanent.

Want to see the results for yourself? Ask our team! Karmen, Lee, Kelly, and Brooke have all achieved stunning jawline transformations and now confidently face any angle.

Treat yourself: this month purchase Laser Lift or FaceTite and save \$1000. Plus, your prepaid treatment can be used at this special price any time in the next year. — *Courtney Lo*

Introducing RegenGlo: *A fresh start for your skin*

For **smoother, revitalized skin**, experience this personalized 3-step CSLC exclusive treatment. We combine the power of *SkinPen microneedling* with a *PRF infusion*, and finish with a gentle *RF microneedling* or *laser resurfacing*. Enhance your results and accelerate healing with a soothing PRF bath and LED therapy.

\$1200 for one, or \$3500 for a series of 3.
